NP JSC AMICO

is well known as Russian largest manufacturer and distributor of medical imaging systems. Founded in 1994, with a well-earned reputation for excellence, innovation and quality, the company has consistently achieved rapid growth and currently stands as one of the fastest growing companies in Russia with a crew of experts working to help our customers be successful.

We have served thousands of satisfied customers: business units, hospitals and physicians. Exceeding their expectations is our highest priority.

Our ability to adapt and partner with customers makes it easy to do business with us. In wide range of products AMICO has unique medical imaging solutions developed to meet certain requirements.

Today, we are continuing to make improvements in image quality, work-flow productivity and customer value to remain a trusted partner.

FACTORIES

JSC "ROENTGENPROM" is the biggest Russian manufacturer of mass screening equipment. Chest screening units and mammography machines are manufactured at production sites in the cities of Protvino and Istra. The special attention can be devoted to the mobile diagnostic rooms which allow doctors to reach the farthest earth nooks.

JSC "Aprelevka X-ray factory" (AZRT) supplies conventional and digital systems for wide range of X-ray examinations.

"Roentgen-Complete" Ltd manufactures special equipment for surgery and dental purposes.

"Spetsmedpribor" Ltd manufactures wide range of protective goods: from X-ray protective apparel to MRI shielding rooms.
